

## CHAPTER 30

### SIGNS

SECTION 30.1 DESCRIPTION AND PURPOSE. This Chapter is intended to regulate the size, number, location and manner of display of signs in the Township in a manner consistent with the following purposes:

1. To protect and further the health, safety and welfare of the Township residents, property owners and visitors.
2. To prevent traffic hazards and pedestrian accidents caused by signs which obstruct vision, distract or confuse drivers, or are improperly secured or constructed.
3. To conserve and enhance community character.
4. To promote uniformity in the size, number or placement of signs within districts.
5. To promote the economic viability of commercial areas by minimizing visual clutter, and allowing for proper placement of signs to safely direct motorists to their destination.
6. To balance the public's right to be informed and its desire to avoid visual pollution and hazardous conditions with the desires of businesses and non-business uses to communicate by means of signs.
7. To maintain and enhance the Township's aesthetic environment in a manner that is consistent with the public health, safety and welfare.

No sign shall be erected, altered, placed, established, painted, created, or maintained in the Township except in compliance with the standards, procedures, and requirements of this Chapter.

### SECTION 30.2 DEFINITIONS.

Abandoned sign. A sign which no longer identifies or advertises a bona fide business, owner, lessor, person, service, product or activity, or for which no legal owner can be found.

A change solely in the wording of the copy of a sign shall not constitute an "alteration" for purposes of this Chapter, unless the result of the change would cause the sign to be reclassified to a type of sign subject to different or more restrictive regulation (e.g., a change from an on-premise to an off-premise sign).

Area of Sign: The total exterior surface devoted to advertising purposes as determined under the provisions of Section 30.9.

Commercial message. Any sign wording, logo, or other representation that, directly or indirectly, names, advertises, locates or calls attention to a business, profession, product, service, or other commercial activity.

Copy. The wording on a sign surface in either permanent or removable letter form.

Off-premise Sign. A sign which relates to or advertises an establishment, product, merchandise, good, service or entertainment which is not located, sold, offered, produced, manufactured or furnished at the property on which the sign is located (including, but not limited to, billboards).

On-premise Sign. A sign which pertains solely to the use of the property on which it is located such as to an establishment, product, merchandise, good, service or

entertainment which is located, sold, offered, produced, manufactured or furnished at the property on which the sign is located.

Portable Sign: A sign that is not permanent or affixed to a building or structure and by its nature may be or is intended to be moved from one location to another, whether rented or owned, such as "A" frame signs or signs attached to or painted on vehicles parked and visible from the public right-of-way, unless the vehicle is used for vehicular purposes in the normal day-to-day operations of the business.

Residential Community Sign: A sign identifying a recognized platted subdivision, site condominium project, multi-family development, or other residential development, which subdivision, project or development has been approved by the township as provided by this ordinance.

Roof Line: For purposes of this Chapter, "roof line" means the top edge of a roof or building parapet, whichever is higher, excluding any cupolas, pylons, chimneys or minor projections.

Roof Sign: A sign erected above (or which extends above) the roof line of a building.

Sign: A device, fixture, placard, or structure that uses any color, form, graphic, illumination, symbol, or writing to advertise, announce the purpose of, or identify the purpose of any business, establishment, person, entity, product, service or activity, or to communicate information of any kind to the public.

The property owner shall at all times maintain in force a valid sign permit for any sign requiring a permit.
2. Application. Application for a sign permit shall be made to the Township Office, along with a fee in the amount established by resolution of the Township Board. The permit application shall be reviewed in accordance with the following procedures:
  - a. Required Drawings and Information. An application for construction, creation, or installation of a new sign or for alteration of an existing sign shall be accompanied by detailed drawings and accompanying narrative statements to show and describe the dimensions, design, structure, and location of each particular sign. A single application and permit may include multiple signs on the same lot.

- b. Completeness. After receiving an application for a sign permit, the Township shall review it for completeness. If the Township determines that it is complete, the application shall then be processed. If the application is determined to be incomplete, the Township shall send to the applicant a written notice specifying how the application is deficient.
  - c. Issuance or Rejection. After the submission of a complete application for a sign permit, the Township shall either: (1) issue the sign permit, if the sign that is the subject of the application conforms in every respect with the requirements of this Chapter; or (2) reject the sign permit if the sign that is the subject of the application fails in any way to conform with the requirements of this Chapter.
3. Electrical Signs All signs requiring electrical service shall be reviewed for compliance with the Township's electrical code. Approval of electrical signs shall be noted on or attached to the sign permit.

#### SECTION 30.7 DESIGN, CONSTRUCTION AND LOCATION STANDARDS.

1. All signs shall at all times be properly maintained in good structural condition in compliance with the requirements of this Chapter and shall not be permitted to become unsightly through disrepair or as a result of the effects of the weather. Under no circumstances shall the design, construction, support, or location of a sign constitute in any way a hazard to the health, safety or welfare of the public or to adjacent property.
2. Signs may be internally or externally illuminated. The source of the light shall be enclosed and directed to prevent the source of light from shining directly or indirectly onto traffic or adjacent or nearby properties.
3. Signs shall not be placed in, upon or over any public right-of-way, alley, or other place, except as may be otherwise permitted by the Kent County Road Commission or Michigan Department of Transportation. Any sign installed or placed in the public right-of-way or otherwise on public property, except in compliance with the provisions of this Chapter, shall be forfeited to the public and subject to confiscation and may be immediately removed by the Township. In addition to other available remedies, the Township shall have the right to recover from the owner or person placing an unauthorized sign the full costs of removal and disposal of the sign.
4. A sign shall not be erected in any place where it may, by reason of its position, shape, color, or other characteristics, interfere with, obstruct the view of, or be confused with any authorized traffic sign, signal, or device, or constitute a nuisance.
5. A sign shall not contain any moving or animated parts, except for time and temperature signs and barber pole signs.

6. Except as otherwise expressly allowed by this Chapter, all signs shall be constructed of permanent materials and shall be permanently attached to the ground, a building, or another structure by direct attachment to a rigid wall, frame, or structure. The sign support and construction for all signs requiring permanent attachment shall be able to withstand a minimum of 30 pounds of horizontal pressure per square foot of the area of the sign.

- 8. A sign shall be removed by the owner within 24 hours of receipt of notice from the Township stating that the sign is unsafe or not properly maintained or otherwise does not comply with the requirements of this Chapter by reason of its size, height, design, condition or location. The notice shall state that if the owner does not remove the sign, or correct the unsafe or improper condition, within that time period, the sign may be removed by the Township. Upon failure to remove or correct the unsafe or improper condition within 24 hours of receipt of notice, the Township may take whatever action is necessary to have the sign removed or to otherwise abate the unsafe or improper condition, and in addition to other available remedies, the Township shall have the right to recover from the owner of the sign the full costs of removing and disposing of the sign or abating the unsafe or improper condition.

#### SECTION 30.9 MEASUREMENTS OF SIGNS.

1. Except as provided in section 30.15(2), all signs approved in connection with a special land use or a Planned Unit Development shall meet the requirements of this Chapter for signs as applicable to the zoning district in which the special land use or PUD is located.
2. In cases where extenuating or extraordinary circumstances create practical difficulties in complying with the requirements of this Chapter and where a modification of the requirements may still result in achieving the objectives of the zoning district in which the sign is to be located, the size, placement, number and height requirements for signs may be modified as provided by this Section. If the sign is part of a PUD in any PUD district, the Planning Commission may recommend to the Township Board, and the Board may, in its discretion, modify the size, placement, number and height requirements for signs in the PUD. If the sign is part of a Special Land Use request, the Planning Commission alone may, in its discretion, modify the size, placement, number and height requirements for any signs proposed. In determining whether to approve a proposed modification, the Planning Commission and the Township Board must each find, based upon the facts presented by the applicant, that the following criteria have been met:

- a. The modification of requirements is justified due to the nature, size, density, location or design of the proposed PUD, or Special Land Use, including the design or placement of proposed signs;
- b. The modification of requirements will not result in traffic or other safety hazards, will not be injurious to the use or enjoyment of nearby property, will not result in visual blight, distraction, or clutter, and will not otherwise result in a detriment to the public health, safety or general welfare; and
- c. The modification will still achieve the intended purpose of the PUD district or the zoning district if it is a Special Land Use, in which the sign is to be located.

**SECTION 30.16 NONCONFORMING SIGNS, AND SIGNS ACCESSORY TO NONCONFORMING USES.**

- 1. Continuance. Notwithstanding any other provision of this Chapter to the contrary, a permanent sign which was erected legally and which lawfully exists at the time of the enactment of this Chapter, but which does not conform to the height, size, area or location requirements of this Chapter, is deemed to be nonconforming and may continue to be used subsequent to that time, as provided by this section.
- 2. Alteration/Repair. Nonconforming signs may not be altered (see definition of "alteration," Section 30.2), expanded, enlarged, extended, or repaired, without being brought into full compliance with all applicable regulations under this Chapter, except as expressly provided by this subsection.
  - a. A nonconforming sign may be diminished in size or dimension without jeopardizing the privilege of nonconforming use. As with conforming signs, a change solely in the wording of the copy of a nonconforming sign shall not constitute a alteration for purposes of this Chapter, unless the result of the change would cause the sign to be reclassified to a type of sign subject to different or more restrictive regulation.
  - b. Routine repair to maintain a nonconforming sign in a safe and aesthetic condition exactly as it existed at the time of the enactment of this Chapter and so as to continue the useful life of the sign shall not constitute an alteration for purposes of this Chapter, unless the estimated cost of repair exceeds 50% of the appraised replacement cost of the entire sign prior to the repair, as determined by the Township. If the estimated cost of repair exceeds 50% of that appraised replacement cost, the right to continue using the nonconforming sign shall thereupon terminate and the sign shall be brought into full compliance with all applicable provisions and requirements of this Chapter prior to further use.
  - c. In no event shall the alteration of a nonconforming sign result in an increase in the nature or degree of any aspect of the sign's nonconformity.

3. Signs Accessory to Nonconforming Uses. A sign related to a nonconforming use may be erected in the Township in accordance with the sign regulations for the zoning district in which the property is located.
4. Damage or Destruction. If a nonconforming sign is damaged or destroyed by fire, explosion, flood, wind or other calamity, the sign may be restored to the condition exactly as it existed immediately prior to the damage or destruction, unless the estimated cost of restoration or replacement exceeds 50% of the appraised replacement cost of the entire sign prior to the loss, as determined by the Township. If the estimated cost of restoration or replacement exceeds 50% of that appraised replacement cost, the right to continue using the nonconforming sign shall thereupon terminate and the sign shall be brought into full compliance with all applicable provisions and requirements of this Chapter prior to further use.

SECTION 30.16 ABANDONED SIGNS. Any sign which the Township determines to be abandoned shall be removed by the owner. If the owner does not remove the sign, or if no owner can be found, the Township may remove the sign. If the sign is removed by the Township and the owner is known, the Township shall have the right to recover from the owner of the sign the full costs of removing and disposing of the sign.

SECTION 30.17 VIOLATIONS.

1. It is a violation of this Chapter to install, create, erect, or maintain any sign that does not fully comply with the requirements of this Chapter, including, but not limited to, any of the following:
  - a. To install, create, erect, or maintain any sign in a way that is inconsistent with any plan or permit governing the sign or the lot on which the sign is located;
  - b. To install, create, erect, or maintain any sign requiring a permit without a permit;
  - c. To fail to remove any sign that is installed, created, erected, or maintained in violation of this Chapter; or
  - d. To continue any violation of this Chapter.
2. Each sign installed, created, erected, or maintained in violation of this Chapter is considered a separate violation when applying the penalty portions of this ordinance.
